### 7th Annual Keystone Summit.

The annual Washington State Keystone Summit is an opportunity for over 200 teens between the ages of 14-18 to come together to discuss critical topics and issues impacting youth today. The Summit develops and empowers teen leaders from throughout Washington State to bring positive change to their communities. Teens and Club staff participate in breakout sessions discussing topics identified and curated by local Club teens including youth suicide prevention, mental health, LGBTQ inclusion, political advocacy, networking and interview preparation, Youth of the Year, and community outreach. Over the course of the Summit, teens hear from powerful motivational speakers, engage in meaningful dialogue and discussion with their peers, participate in community service, and build relationships with fellow Boys & Girls Club leaders.
